Coach's Name/Comments:

Kayla Mathiowetz

The girls were not going to let the heat get the better of them today as their bats stayed hot for game 2 for the day. We had good pitch selection that contributed to their performance in the box. Our defense did a nice job working behind Lacey and giving her the support that she needed for the game. These girls have a deep desire to do their best! We strive to always help them keep in mind to have fun when they play the game and the other aspects will fall into place.
